

A cross-sectional view of a multi-layered structure, labeled 1. It consists of a central rectangular cavity. The top and bottom boundaries of this cavity are formed by a series of layers. On the right side, the layers are numbered 17, 16, 11, 12, 15, 13, and 14 from top to bottom. A bracket on the right side groups layers 17 through 14, indicating they form a single structural unit.

A detailed cross-sectional view of a multi-layered structure 10. The structure consists of several layers: a top layer 5, a layer 4, a layer 17, a layer 16, a layer 11, a layer 12, a layer 15, a layer 13, a layer 14, a layer 24, a layer 23', a layer 21, a layer 26, and a bottom layer 27. A central layer 7 is shown in cross-section, with a circular feature 71 on its left side. A layer 3 is located at the bottom of the structure. The layers are grouped into two main sections: 1 (layers 11-17) and 2 (layers 21-27). The entire structure is labeled 10.
